Ribonucleoside 5'-Triphosphates (¹³C, ¹⁵N)

We are pleased to announce the addition of these stable isotope labeled ribonucleoside 5'-triphosphates to our product offering. CIL, working in collaboration with Cassia, LLC, is able to present the four individual ribonucleotides as well as a set of ATP, CTP, GTP and UTP.

Please note that the below products are supplied as the ammonium salt, 100 mM solutions in water, pH=7.8. Recommended storage is < -20°C.
