# **SECTION 4: First-aid measures**

| 4.1. Description of first aid measures              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general                          | : If medical advice is needed, have product container or label at hand. Call a physician<br>immediately. Evacuate danger area.                                                                                                                                                                                                                                                                                                                                                        |
| First-aid measures after inhalation                 | : Remove person to fresh air and keep comfortable for breathing. If not breathing, give artificial respiration. Call a doctor.                                                                                                                                                                                                                                                                                                                                                        |
| First-aid measures after skin contact               | : Rinse skin with water/shower. Take immediately victim to hospital. Remove/Take off immediately<br>all contaminated clothing. If skin irritation occurs: Get medical advice/attention.                                                                                                                                                                                                                                                                                               |
| First-aid measures after eye contact                | : Immediately flush eyes thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.                                                                                                                                                                                                                                                                                 |
| First-aid measures after ingestion                  | : Do not induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth. Call a physician immediately.                                                                                                                                                                                                                                                                                                                                                           |
| 4.2. Most important symptoms and effect             | s (acute and delayed)                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Potential Adverse human health effects and symptoms | : This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. ### Safety Data Sheet

Symptoms/effects after ingestion

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Symptoms/effects after skin contact | : Toxic in contact with skin. Causes skin irritation. |
|-------------------------------------|-------------------------------------------------------|
| Symptoms/effects after eye contact  | : Causes serious eye irritation.                      |

: Toxic if swallowed.

4.3. Immediate medical attention and special treatment, if necessary

Treat symptomatically.

## **SECTION 5: Fire-fighting measures**

| 5.1. Suitable (and unsuitable) extinguishing media                  |                                                                                                                                                                                                                                                                                                                   |  |
|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Suitable extinguishing media<br>Unsuitable extinguishing media      | <ul><li>Dry powder. Dry sand.</li><li>Do not use a heavy water stream.</li></ul>                                                                                                                                                                                                                                  |  |
| 5.2. Specific hazards arising from the chemical                     |                                                                                                                                                                                                                                                                                                                   |  |

| Other information                                                   | : Use water spray to cool exposed surfaces.                                                                                                                                                                                                                                                                       |  |

| SECTION 6: Accidental release measures                                   |                                                                                                                                                                                                                                                                                                                                                                 |  |
|--------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 6.1. Personal precautions, protective equipment and emergency procedures |                                                                                                                                                                                                                                                                                                                                                                 |  |
| 6.1.1. For non-emergency personnel                                       |                                                                                                                                                                                                                                                                                                                                                                 |  |
| Emergency procedures                                                     | : Wear respiratory protection. Do not breathe dust, mist, gas, spray, vapors, fume. Avoid contact with skin, eyes and clothing. Ventilate spillage area. Remove all sources of ignition. No open flames, no sparks, and no smoking. Ensure adequate air ventilation. Special attention should be given to low areas/pits where flammable vapors can accumulate. |  |
| 6.1.2. For emergency responders                                          |                                                                                                                                                                                                                                                                                                                                                                 |  |
| Protective equipment                                                     | : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".                                                                                                                                                                                                     |  |

#### 6.2. Environmental precautions

Prevent entry to sewers and public waters. Do not allow to enter drains or water courses. Avoid release to the environment.

| 6.3. Methods and material for containment and cleaning up |                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For containment                                           | : For large spills, confine the spill in a dike and charge it with wet sand or earth for subsequent safe disposal. Dike and contain spill. Small quantities of liquid spill: take up in non-combustible absorbent material and shovel into container for disposal. |
| Methods for cleaning up                                   | : Take up liquid spill into absorbent material. Notify authorities if product enters sewers or public waters. This material and its container must be disposed of in a safe way, and as per local legislation.                                                     |
| Other information                                         | : Dispose of materials or solid residues at an authorized site.                                                                                                                                                                                                    |
| 6.4. Reference to other sections                          |                                                                                                                                                                                                                                                                    |
| For further information refer to section 13.              |                                                                                                                                                                                                                                                                    |

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

#### **SECTION 7: Handling and storage** 7.1. Precautions for safe handling Precautions for safe handling Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. : Ground/bond container and receiving equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Flammable vapors may accumulate in the container. Use explosion-proof equipment. Wear personal protective equipment. Do not breathe dust, fume, gas, spray, vapors, mist. Do not get in eyes, on skin, or on clothing. Use only outdoors or in a well-ventilated area. Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after Hygiene measures handling the product. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Always wash hands after handling the product. 7.2. Conditions for safe storage, including any incompatibilities Technical measures : Ground/bond container and receiving equipment. Store in a well-ventilated place. Keep container tightly closed. Store locked up. : Store at room temperature away from light and moisture. Storage conditions

| 51 I                                            |                     |

#### 9.2. Other information

No additional information available

### **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

Vapors may form flammable mixture with air. Highly flammable liquid and vapor.

#### **10.2. Chemical stability**

See storage and expiration date on CoA.

**10.3.** Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

**10.4. Conditions to avoid** 

Avoid contact with hot surfaces. Heat. No flames, no sparks. Eliminate all sources of ignition.

**10.5. Incompatible materials** 

Acid anhydrides. Acid chlorides. Oxidizing agent. Alkali Metal Amides. Reducing agents. Acids.

**10.6. Hazardous decomposition products** 

Carbon oxides (CO, CO2).

### Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

#### **SECTION 11: Toxicological information** 11.1. Information on toxicological effects : Toxic if swallowed. Acute toxicity (oral) : Toxic in contact with skin. Acute toxicity (dermal) Acute toxicity (inhalation) : Toxic if inhaled. UCMR 5 SUPPLEMENTAL NATIVE COMPONENT MIX (UNLABELED) IN METHANOL W/4 MOLAR EQUIVALENTS NAOH LD50 oral rat 1187 - 2769 mg/kg LD50 dermal rabbit 17100 mg/kg 128.2 mg/l/4h ; 87.6 mg/l - 6 h LC50 Inhalation - Rat ATE US (oral) 100.002 mg/kg body weight ATE US (dermal) 300.007 mg/kg body weight Additional data LDLO, oral, human: 143 mg/kg Remarks: Lungs, Thorax, or Respiration: Dyspnea. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. 100% METHANOL UNLABELED (67-56-1) LD50 oral rat 1187 - 2769 mg/kg LD50 dermal rabbit 17100 mg/kg LC50 Inhalation - Rat 128.2 mg/l/4h ; 87.6 mg/l - 6 h ATE US (oral) 100 mg/kg body weight ATE US (dermal) 300 mg/kg body weight ATE US (vapors) 3 mg/l/4h ATE US (dust, mist) 128.2 mg/l/4h LDLO, oral, human 143 mg/kg Remarks: Lungs, Thorax, or Respiration: Dyspnea. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Skin corrosion/irritation : Causes skin irritation. SODIUM HYDROXIDE UNLABELED (1310-73-2 (Unlabeled)) pН 14 at 50 g/l at 20 °C (68 °F) Serious eye damage/irritation : Causes serious eye irritation. SODIUM HYDROXIDE UNLABELED (1310-73-2 (Unlabeled)) 14 at 50 g/l at 20 °C (68 °F) pН Respiratory or skin sensitization : Not classified Germ cell mutagenicity Not classified : : Not classified Carcinogenicity UCMR 5 SUPPLEMENTAL NATIVE COMPONENT MIX (UNLABELED) IN METHANOL W/4 MOLAR EQUIVALENTS NAOH National Toxicology Program (NTP) Status No component of this product present at levels greater than or equal to 0.1% is identifiable as probable, possible, or confirmed human carcinogen by IARC. 100% METHANOL UNLABELED (67-56-1)

 National Toxicology Program (NTP) Status
 No component of this product present at levels greater than or equal to 0.1% is identifiable as probable, possible, or confirmed human carcinogen by IARC.

 Reproductive toxicity
 : Not classified

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| STOT-single exposure                                | : Causes damage to organs (eyes, kidneys, liver, heart, central nervous system) (Dermal, Inhalation, oral).                                                                                                                                                                                                                                                                                                                                                                                     |

| Potential Adverse human health effects and symptoms | This information is based on our current knowledge and is intended to describe the product for<br>the purposes of health, safety and environmental requirements only. It should not therefore be<br>construed as guaranteeing any specific property of the product. Effects due to Ingestion may<br>include: Headache. Dizziness. Drowsiness. metabolic acidosis. Coma. May be fatal if swallowed<br>and enters airways. If swallowed there is a risk of blindness. Effects on humans. stomach. |
| Symptoms/effects                                    | : Causes damage to organs (Eyes, heart, liver, kidneys, central nervous system, Skin) (in contact with skin, if inhaled, if swallowed).                                                                                                                                                                                                                                                                                                                                                         |
| Symptoms/effects after inhalation                   | : Toxic if inhaled.                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Symptoms/effects after skin contact                 | : Toxic in contact with skin. Causes skin irritation.                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Symptoms/effects after eye contact                  | : Causes serious eye irritation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Symptoms/effects after ingestion                    | : Toxic if swallowed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

### **SECTION 12: Ecological information**

#### 12.1. Toxicity

Ecology - general

: The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.

### CANADA

## UCMR 5 SUPPLEMENTAL NATIVE COMPONENT MIX (UNLABELED) IN METHANOL W/4 MOLAR EQUIVALENTS NAOH

Listed on the Canadian DSL (Domestic Substances List)

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

#### 100% METHANOL UNLABELED (67-56-1)

Listed on the Canadian DSL (Domestic Substances List)

#### N-ETHYLPERFLUOROOCTANESULFONAMIDOACETIC ACID UNLABELED (MIX OF ISOMERS) (2991-50-6)

Listed on the Canadian DSL (Domestic Substances List)

#### N-METHYLPERFLUOROOCTANESULFONAMIDOACETIC ACID UNLABELED - (2355-31-9)

Not listed on the Canadian DSL (Domestic Substances List)/NDSL (Non-Domestic Substances List)

#### PERFLUOROTETRADECANOIC ACID UNLABELED (96% CHEMICAL PURITY) (376-06-7)

Not listed on the Canadian DSL (Domestic Substances List)/NDSL (Non-Domestic Substances List)

#### PERFLUOROTRIDECANOIC ACID UNLABELED (97% CHEMICAL PURITY) (72629-94-8)

Not listed on the Canadian DSL (Domestic Substances List)/NDSL (Non-Domestic Substances List)

#### EU-Regulations

No additional information available

#### National regulations

#### UCMR 5 SUPPLEMENTAL NATIVE COMPONENT MIX (UNLABELED) IN METHANOL W/4 MOLAR EQUIVALENTS NAOH

Listed on INSQ (Mexican National Inventory of Chemical Substances)

CAUTION: This material is supplied for research and development purposes subject to the R&D exemption under TSCA, 40 CFR 720.36, and must meet the requirements of the exemption, including supervision by a "technically qualified individual" as defined by 40 CFR 720.3(ee). The use of this material for "commercial purposes" as defined by 40 CFR 720.3(r) is not permitted in the United States.
